ADDITIONAL SIZES AVAILABLE UPON REQUEST.

Galvanized Single-Loop Bale Ties

125/250 wires per bundle palletized or coiled 11-15 gauge.

Box Wire: Boxes of Either 100 lbs. or 50 lbs.

- 100 lb. boxes: 36 boxes per pallet • 50 lb. boxes: 45 boxes per pallet
- Precision-wound coils • Tagged start points • 10, 11, and 12 gauge

Wire

Description	Gauge	Decimal Size	Breaking Load Range	Feet Per Pound
Galvanized Hi-Ten T-115 Excellent mechanical properties for medium to heavy applications. Smooth galvanized finish. Production coils.	12	.1055	1015-1280	33.69
	13	.092	765-964	44.78
	14	.080	578-729	58.58
Galvanized Super Hi-Ten T-145 Exceptional high strength and elongation for the toughest applications. Smooth galvanized finish. Production coils.	11	.120	1640-1979	26.03
	12	.1055	1280-1544	33.69
	13	.092	964-1163	44.78
	14	.080	729-880	58.58
Galvanized Premium Wire T-185 Manufactured from a medium carbon wire rod to achieve tensile strength. Smooth galvanized finish. Production coils.	11	.120	2150-2430	26.03
	12	.1055	1680-1865	33.69
	13	.092	1345-1505	44.78
Black Annealed Manufactured from a medium carbon wire rod to achieve a good balance between tensile strength and elongation. Oiled finish. Production coils and 100-pound cartons.	10	.135	860-930	20.57
	11	.120	680-740	26.03
	12	.1055	530-570	33.69
	13	.092	400-430	44.78

ADDITIONAL SIZES AVAILABLE UPON REQUEST.

Galvanized or Black Annealed Wire on Carriers

1000 lb. to 1500 lb. carriers: 10-14 gauge. Carrier heights from 39-48 inches.
